Acerca de Nosotros

Como pionero en la distribución de aire comprimido y fluidos a presión, PiPro se dedica a la mejora continua de tuberías y accesorios de aluminio para aire comprimido, vacío, gas inerte, etc. Despues de años de investigación y desarrollo de ingeniería, hemos lanzado la última generación de sistema de tuberías de aluminio para aire PiPro.

Reconocemos la importancia de la seguridad y confiabilidad que el sistema de tuberías de aire representa para la industria. PiPro Aluminium cumple con los requisitos de varias certificaciones y estándares de la industria, lo que garantiza el más alto nivel de seguridad y calidad. Con confianza en su diseño patentado y gestión de calidad, los productos fabricados por PiPro están garantizados con 15 años de garantía de calidad.

Entendemos sus necesidades, nuestro equipo experto están listos para ayudarlo a obtener el sistema de tuberías de aire y los componentes más adecuados. PiPro se compromete a brindar un excelente servicio al cliente en productos de calidad a un precio competitivo.

Certificados

ISO, CE, ASME, TUV, PED2014 / 68 / EU

Ventajas

PiPro : sistema de tuberías de aire de rendimiento optimizado

El sistema de tubería de aire de aluminio PiPro es adecuado para aire comprimido, vacío y gas inerte, etc. El sistema de tubería de aire PiPro varía de 20 mm (3/4") a 200 mm (8") para integrar su proyecto sin comprometer el rendimiento. A través de su diseño confiable sin fugas y material duradero resistente a la corrosión, el sistema de tubería de aire de aluminio PiPro proporciona constantemente fuentes de aire limpias y de calidad, garantiza un ahorro total de costos y la optimización de su sistema de aire y eficiencia de producción.

Esta hecho de aluminio liviano pero duradero que garantia aire de alta calidad y baja caída de presión. Los accesorios y tuberías de diseño modular se pueden reutilizar.

El sistema de tuberías de aire PiPro cumple con los requisitos de varias certificaciones y estándares de la industria, lo que garantiza el más alto nivel de seguridad y calidad. Los productos Ali PiPro están garantizados con 15 años de garantía de calidad.

Comuníquese con PiPro para obtener más detalles.

Rápido , Fácil y Adaptable a Modificación | Instalación

El exclusivo diseño modular patentado por PiPro y los accesorios push-to-connect hacen que el sistema sea súper fácil y rápido de instalar, modificar y expandir sin soldar, unir o cualquier otro proceso que requiera mucho tiempo. Ayuda a ahorrar entre un 60% y un 80% de costos de instalación, modificación y mantenimiento.

PiPro reduce significativamente el costo en todo el proceso

1. El diseño fácil y rápido de PiPro ayuda a reducir el costo de instalación, modificación y mantenimiento.
 2. PiPro ayuda a ahorrar energía aumentando la eficiencia, reduciendo las caídas de presión y eliminando fugas o desconexiones.
 3. PiPro proporciona fuentes de aire continuas, limpias y de calidad, que prolongarán la vida útil de su línea de producción.
1. PiPro's easy design helps to reduce the cost of installation, modification, and maintenance.
2. PiPro helps ownership save energy by increasing efficiency, reducing pressure drops, and eliminating leaks or disconnection.
3. PiPro provides continuous clean and quality air sources, which will prolong the lifespan of your production line.

Diseño Exclusivo, Desempeño óptimo

Comparado con las opciones tradicionales y otras tuberías de aluminio, los sistemas de aire de con diseños vanguardistas.

PiPro mejoran

Compared with traditional options and others' aluminum fittings. PiPro air piping system improved with new advanced design.

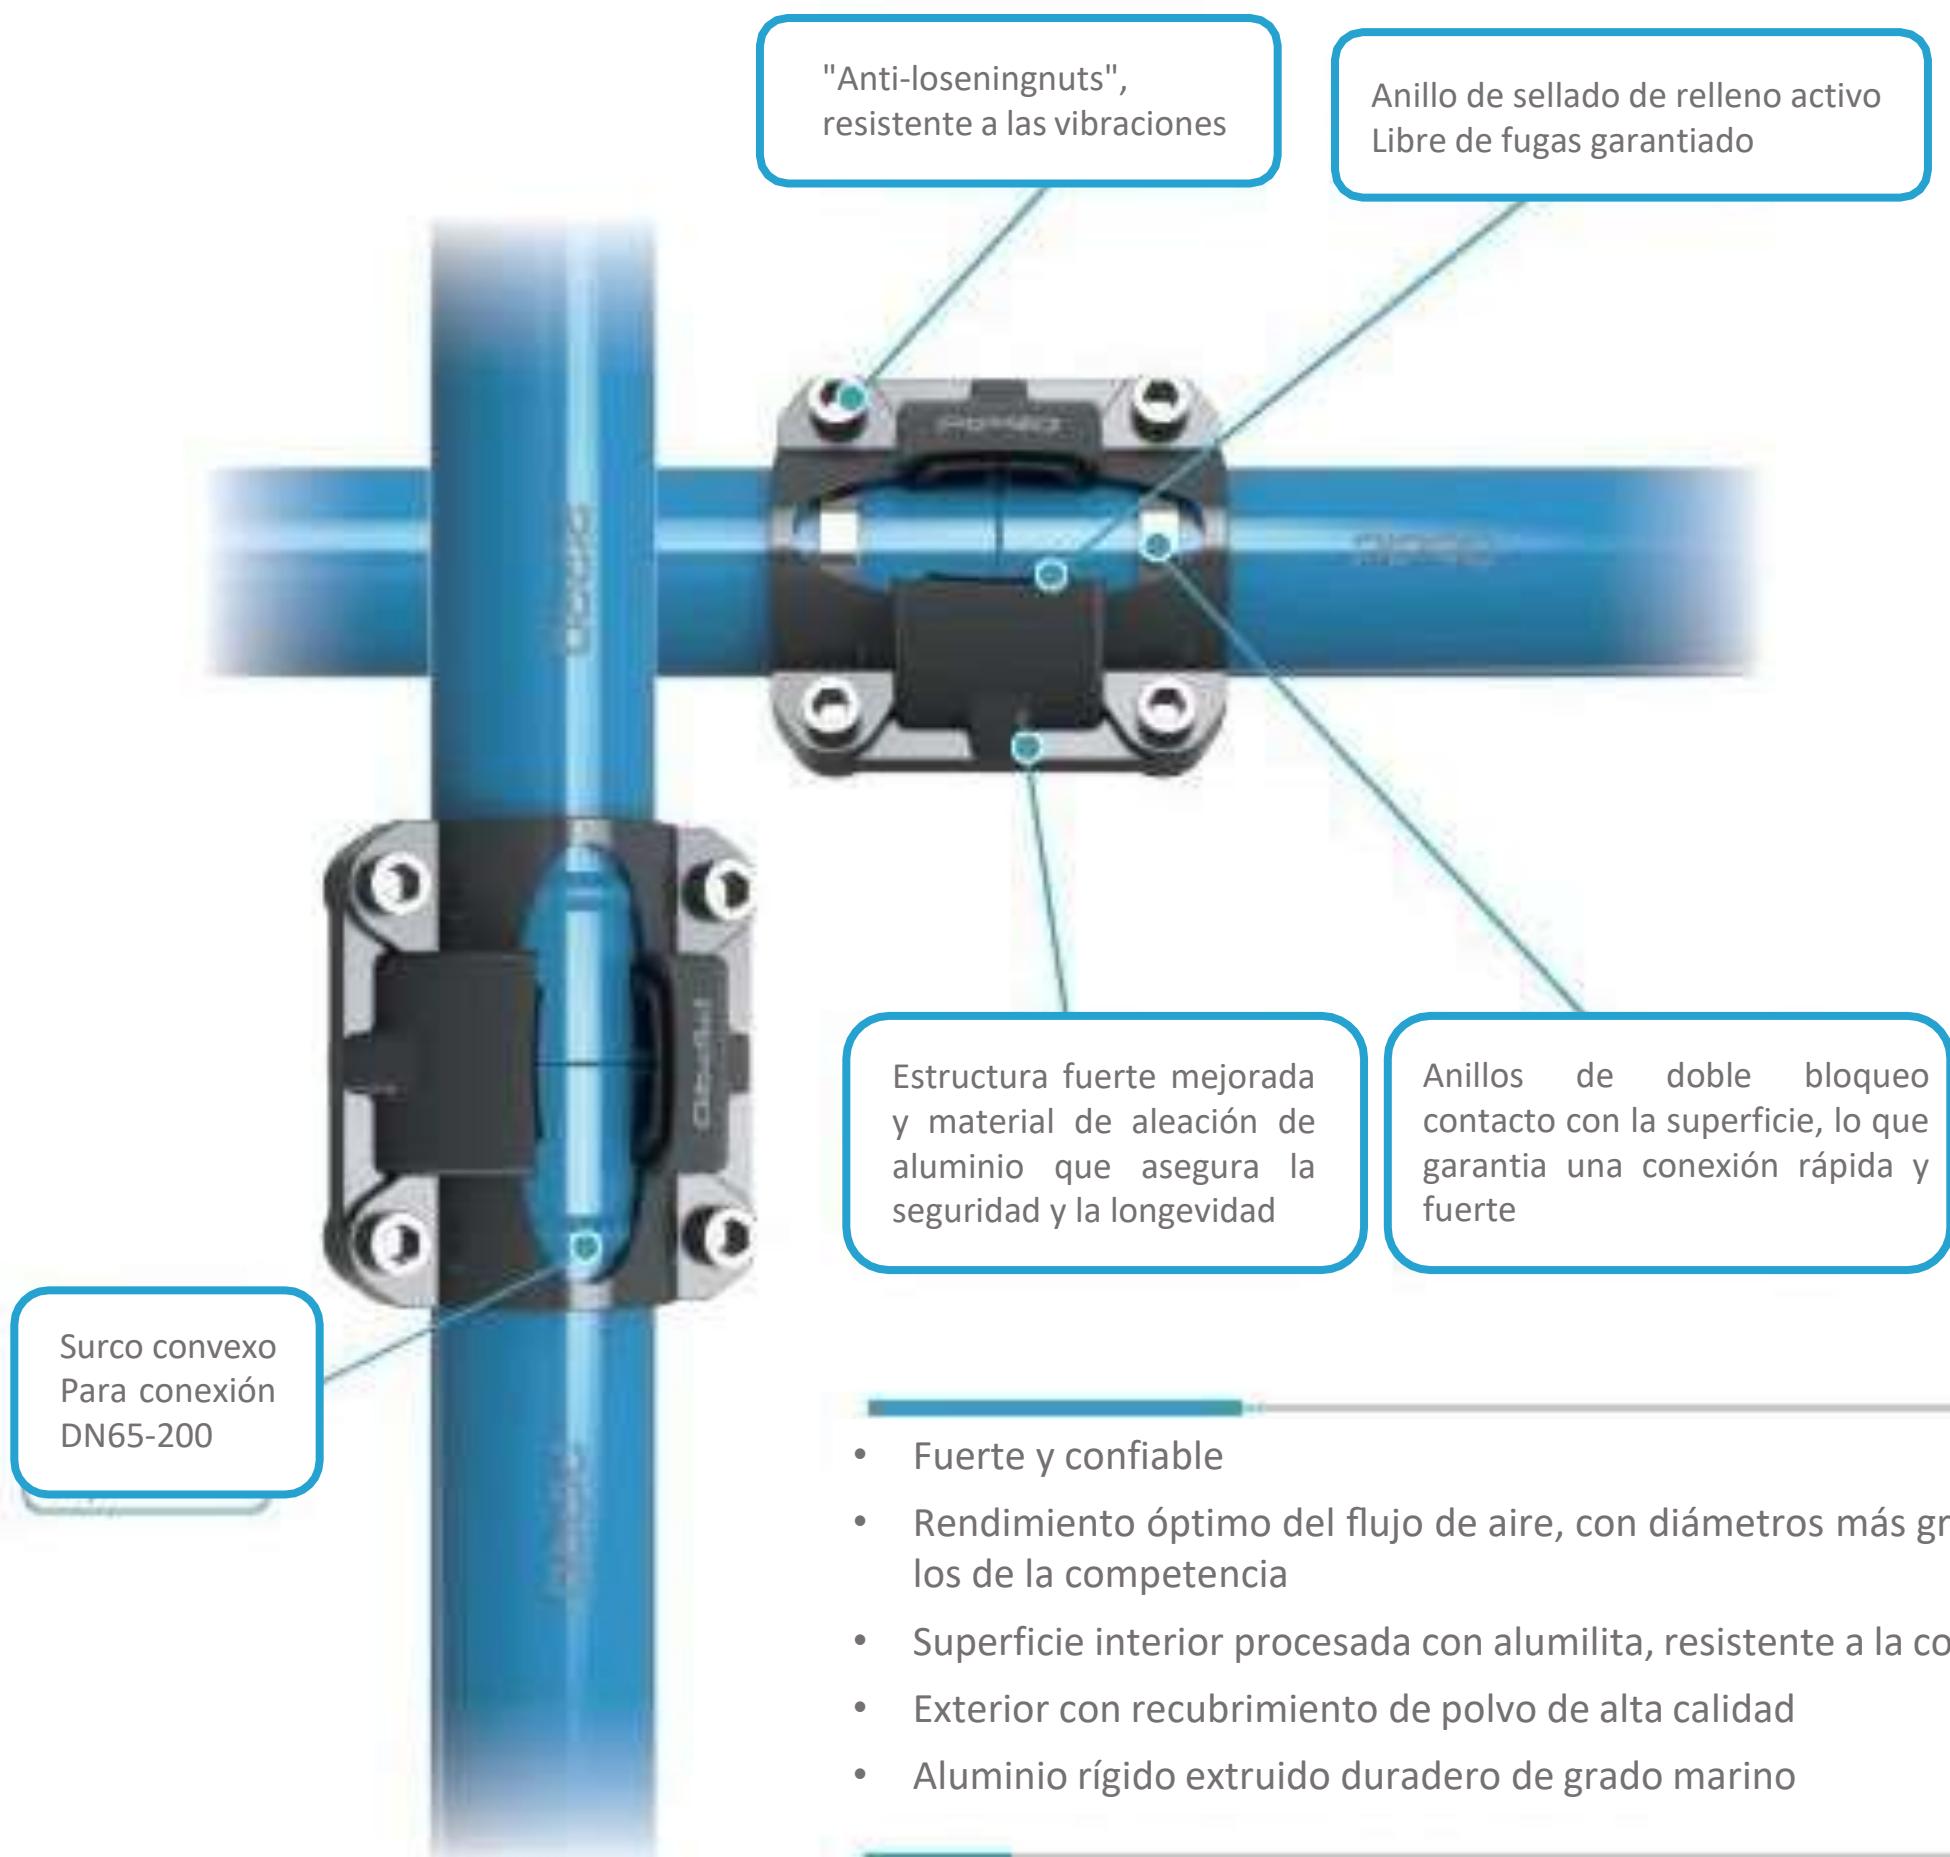

Experto en sistemas de tubería para aire de Aluminio / 03

FACIL | RÁPIDO | CONFIABLE | ECONÓMICO

Características mejoradas de PiPro

1. El anillo de bloqueo dual C con agarre de contacto total garantiza una conexión fuerte;
2. Los pernos anti-aflojamiento garantizan la resistencia a cualquier vibración;
3. El diseño de nervadura reforzada hace que los accesorios sean extremadamente confiables;
4. El diseño de la porción elevada hace que la caída rápida se conecte mejor y fluya sin humedad;
5. Los diámetros interiores más grandes optimizan un mejor flujo de aire;
6. El anillo de sellado exclusivo asegura un mejor sellado sin fugas;

Características del producto

Referencias de Clientes

PiPro cuenta con clientes en diferentes industrias, Alimentos, Maquinaria, Electrónica, Embalaje, Autopartes, Textil, Bebidas, Tabaco, Materiales de construcción, Aeroespacial, Química, Muebles y Electrodomésticos.

EASY | FAST | RELIABLE | SAVING

PIPRO

PIPRO -----

As pioneer in fluids transportation and distribution, PiPro is dedicated to continuous improvement of our aluminum and stainless steel piping system. With self-owned manufacturing facilities, well organized supply chain management and global network, PiPro delivers not only products with premium quality and competitive prices, but also values to worldwide customers. PiPro respect basic but most important business ethics, human rights and emolities.

Our push-in and press connections and pre-grooved connectors and pipes ensure to reduce your labor cost to minimum level. With superior 304/316L stainless steel material, we could meet different customers critical requirements for diverse fields.

Through its reliable zero-leak design and durable corrosion-free pipe system, PiPro consistently provides clean and quality fluids transportation and distribution, ensuring energy/labor saving and optimization of your piping system and production efficiency. PiPro aims as its name, to be professional pipe manufacturer and supplier.

CERTIFICATES

ISO, CE, ASME, TUV, NSF, FDA

PIPRO

ADVANTAGES OVERVIEW

SUPERIOR MATERIAL AND PERFORMANCE, RELIABILITY, LONGEVITY

1. International recognized standard stainless steel materials 304/316L, safe, corrosion free, maintenance free, with stability and longevity;
2. Embedded and active filling-in sealing ring with different materials options for diverse fluids, with leak-free performance and stability;
3. NSF and FDA approved sealing materials to guarantee public health and safety.

EASY & FAST

1. Push-in and press fittings ranges from DN15-DN100, install a connection within 10seconds with a portable tool;
2. Mature grooved connections for DN125-DN300, with pre-grooved pipes and fittings, just fix two screws to connect the clamp connectors to fittings and pipes;
3. Selected professional and easy tools.

COST SAVING

Few seconds to finish a press fitting, save time and labor cost;
Two screws to fix and install a grooved clamp connector, fast and saving;
Pre-grooved pipes at two ends, reducing your labor cost and operation time to minimum level;
Original manufacturer guarantees stable and competitive prices;

UNIVERSAL SIZES AND STANDARDS

PiPro standard sizes and EU standards sizes, are available for worldwide markets;*
PiPro products meet different industry quality and pressure equipment standards.*

*For different standards sizes and industrial systems, please contact a PiPro engineer for suggestions and assistance.

IMPROVED FEATURES

01.

Extended fitting sleeves to keep pipe straight and install more accurate;

02.

Dual press keeps connection more stable and reliable;

DN15-DN100

03.

Embedded sealing ring with different material options, guarantee leak free performance;

DN125-DN300

01.

Pre-grooved fittings and pipes;

INTRODUCTION

PIPRO

TECHNICAL PARAMETERS

Material	Nominal Pressures
SUS304 or SUS316L	16Bar/232psi

Working Temperature	Applicable fluids
- 20 °C to +80 °C	Compressed Air, Water, Cooling/chilled Water, Solar Water, Fuel & Oil, Gases Etc.

Applications

Industrial compressed air, water supply, hospital, school, hotel, electronics, food & beverage, medical treatment & pharmaceutical factory, fire fighting piping system.

SEALING TECHNOLOGIES

PiPro embedded sealing rings, with superior reliability and longevity, different options for compressed air, water, vacuum, nitrogen and other inert gases, saturated steam, fuel & oil, heating pump, cooling& chilled water, solar water, fire water system etc.

Sealing Code	Description	Color	Working Temperature	Main Application Fluids
EPDM	Ethylene Propylene Diene Monomer		-20°C To 120°C -4°F To 248°F	Cooling/chilled Water; Low Pressure Steam; Compressed Air; Fire Water System; Hydronic Heating; Waste Water.
NBR	Nitrile Butadiene Rubber		-20°C to 100°C -4°F to 212°F	Hydraulic Oil, Inert Gases, Compressed Air, Lubricants.
FKM	Viton Fluoroelastomer		-20°C to 200°C -4°F to 392°F	High Temp. Steam & Gas, Solar, Heating, Compressed Air, Acid Solutions, Chemicals, Inert Gases.

*Contact PiPro engineer for professional suggestions of sealing options.

304 STAINLESS STEEL BODY
AND STAINLESS STEEL ACTUATOR - FLANGE

TOOLS

PICTURE	PRODUCT	ITEM CODE	DESCRIPTION	RANGE
A handheld hydraulic press tool with a blue and black handle and a metal jaw assembly.	Press Tool	PT1550	Full tool set includes 6 jaws +1 Jaw clamper +1 Portable gun +2 Batteries +1 Charger	DN15-DN50
A handheld hydraulic press tool with a blue and black handle and a metal jaw assembly.	Press Tool	PT601B	Portable rechargeable hydraulic press tool includes 4 jaws +1 Charger +2 batteries +1 Oil cylinder sealing ring +1 Safety valve sealing ring	DN60-DN100
A manual pipe cutter with a red and black handle and a serrated cutting wheel.	Pipe Cutter	MC1550	Manual pipe cutter includes 6 blades (Stanley)	DN15-DN50
A manual pipe cutter with a red and black handle and a serrated cutting wheel.	Pipe Cutter	MC501B	Manual Pipe Cutter(RIDGID)	DN50-DN110
A circular metal blade with a serrated edge.	Blade	MC501B-B	Ridgid Blade (for MC501B)	For SS only
An electric pipe cutter with a grey base unit and a red handle.	Electric Pipe Cutter	EC151B	Electric pipe cutter includes 1 blade (Ridgid)	12mm-116mm
A circular metal blade with a serrated edge.	Blade	EC151B-B	Ridgid Blade (for EC151B)	For SS only

BIM DESIGN

PICTURE	PRODUCT	ITEM CODE	DESCRIPTION	RANGE
	Electric Pipe Cutter	EC754B	Electric Pipe Cutter for DN75-DN400 includes 1 saw blade	75mm-400mm
	Saw Blade	EC754B-B	Saw blade for EC754B	For SS only
	Grooving Machine	GM1252B	Grooving machine for DN125-DN200 pipe	DN125-DN200
	Grooving Machine	GM1253B	Grooving machine for DN125-DN300 pipe	DN125-DN300
	Deburrer	D1550	Manual Pipe Deburrer(RIDGID)	DN15-DN50
	Rechargeable Deburrer	D653B	Rechargeable Deburrer includes 1 Grinding wheel	DN65-DN300
	Grinding Wheel	D653B-W	Grinding wheel for D653B	For SS only

All PiPro products are available with 3D models, which are easily to work with BIM design, to design and quote for complicated projects.
